County: Sonoma

Diversion Within: 1/4 of SW1/4 Section 30, T09N, R09W, MB&M

Year of First Use: 1910

Parcel Number: 110-330-044-000

A. **Water is Used Under:** Riparian claim ☒ Pre-1914 right ☒ Other (explain): _____

B. **Year of First Use:** (Please provide if missing above) _____

C. **Amount of Use:** Enter the amount (or the approximate amount) of water used each month, using the table below.

Amounts below are in: Gallons				Million Gallons (MG)			Acre-feet (AF)			Other			Total Annual
Year	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec	
2003	/	/	/	/	I don't know how much water						/	/	
2004	/	/	/	/	I use. It's very small amount						/	/	
2005	/	/	/	/	for a flower garden.						/	/	

D. **Purpose of Use** - Specify number of acres irrigated, stock watered, persons served, etc. *How in the world could I accurately answer these questions?*
Irrigation one acres; Stockwatering _____; Domestic _____
Other (specify) I irrigate a small garden

E. **Changes in Method of Diversion** - Describe any changes in your project since your previous statement was filed.
(New pump, enlarged diversion dam, location of diversion, etc.) none

F. Please answer only those questions below which are applicable to your project.

1. Conservation of water

a. Are you now employing water conservation efforts? YES _____ NO _____
Describe any water conservation efforts you have initiated: _____

b. If you are claiming credit for water conservation under section 1011 of the Water Code for your claimed pre-1914 appropriative right, please show the amount of water conserved:

Reduction in Diversions:

Year _____ (AF/MG) Year _____ (AF/MG) Year _____ (AF/MG)

Reduction in consumptive use:

Year _____ (AF/MG) Year _____ (AF/MG) Year _____ (AF/MG)

I have data to support the above surface water use reductions due to conservation efforts. YES _____ NO _____

2. Water quality and wastewater reclamation

- a. Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree, which unreasonably affects such water for other beneficial uses? YES ____ NO ____.
- b. If you are claiming credit due to the substitution of reclaimed water, desalinated water or polluted water in lieu of a claimed pre-1914 appropriative right under section 1010 of the Water Code, please show amounts of reduced diversions and amounts of substitute water supply used:

Amount of reduced diversion:

Year ____ (AF/MG) Year ____ (AF/MG) Year ____ (AF/MG)

State the type of substitute water supply: _____

Amount of substitute water supply used:

Year ____ (AF/MG) Year ____ (AF/MG) Year ____ (AF/MG)

I have data to support the above surface water use reductions due to the use of a substitute water supply. YES ____ NO ____.

3. Conjunctive use of surface water and groundwater

- a. Are you now using groundwater in lieu of surface water? YES ____ NO ____.
- b. If you are claiming credit due to the substitution of groundwater for a claimed pre-1914 appropriative right under section 1011.5 of the Water Code, please show the amounts of groundwater used:

Year ____ (AF/MG) Year ____ (AF/MG) Year ____ (AF/MG)

I have data to support the above surface water use reductions due to the use of groundwater. YES ____ NO ____.

I understand that it may be necessary to document the water savings claimed in "F" above if credit under Water Code sections 1010 and 1011 is sought in the future.

I declare that the information in this report is true to the best of my knowledge and belief.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

**TO ALL WATER USERS FILING SUPPLEMENTAL STATEMENTS
OF WATER DIVERSION AND USE**

Enclosed are your Supplemental Statement of Water Diversion and Use Form (WR 40-1) for 1994 and a Statement of Water Diversion and Use Information Sheet.

All Supplemental Statements of Water Diversion and Use (Statements) should be postmarked no later than June 30, 1995 for delivery to the State Water Resources Control Board (SWRCB). You are responsible to notify SWRCB prior to April 28, 1995 if you do not receive Statements for your previously filed diversions. The SWRCB will then prepare and mail the additional Statement forms for your completion and return to SWRCB.

If you do not file your Statements for five consecutive years, you will be considered inactive and SWRCB will no longer mail you Statements for your diversions. If you wish to reactivate an inactive Statement, you must notify us in writing.

The enclosed Statement is a revised and shortened version of the old 8 1/2" X 14" reporting form. Since we have converted to a new database system to input water right data onto this form, we ask for your assistance in correcting any errors that may exist in our database. Please review the information in the upper half of the Notice and note any corrections or additions that may be needed (e.g., current ownership, address, phone number, etc.).

Please complete an enclosed Statement Information Sheet to the best of your knowledge for each diversion to help us update our new database. Indicate on the information sheet the owner, lessee, or agent who is designated to receive all correspondence and reporting forms, and verify that the name and address on the report form is correct. Please provide all legal owners and the parcel number for each diversion, and the parcel number(s) for all place(s) of use on the Statement Information Sheet.

Please complete the enclosed Statement and the Statement of Water Diversion and Use Information Sheet to the best of your knowledge. Return both forms to SWRCB. These forms should be postmarked on or before June 30, 1995. Contact Wynne Rowlands of this office at (916) 657-1875 if you need assistance.

Sincerely,

Murt Lininger
Program Manager

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriate right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:
